

Dion Global Solutions successfully forays into Africa; signs a partnership deal with FASYL

India / Africa, September 10th, 2011: Dion Global Solutions Limited (Dion) announced today that it has signed a strategic partnership with FASYL Technology Group in Nigeria, Africa. Through this partnership, FASYL will be distributing the innovative operational risk management solution of Dion's associate company in Africa market. FASYL Technology Group is a group of companies with focus on IT services in the Finance operations of medium and large Institutions of all industries.

Regulators across the globe have been focusing on operational risk within financial institutions and expect robust risk frameworks implemented within these organizations. Globalization and deregulation of the financial services have created numerous operational risks across the financial institutions, including banks. This has resulted in increased complexity of banks' risk-profile. The central bank and regulators have laid constant emphasis and have provided guidance to banks from Basel compliance perspective. Banks in Africa also suffer from same risk complexities and have started recognizing the importance of mitigating various operational risks.

Chase Cooper Ltd., an associate company of Dion, is a leading international provider of Enterprise Wide Operational Risk Management and Compliance solutions. **aCCelerate** is an award winning operational risk software of Chase Cooper and is designed by expert operational risk management practitioners. **aCCelerate** is a widely acclaimed software solution and has already been installed in over 84 countries across six continents. The software has the ability to identify various categories of operational risks and also quantifies and provides reports to regulators or to the internal board of the bank seamlessly.

Mr. Abhay Kumar Sinha, COO, Dion remarked, "We are elated with this partnership with FASYL Technology Group. They have a highly reputable name in the financial market in Africa and we are confident that both the companies will mutually benefit from this association. **aCCelerate** is a functionally rich operational risk software which has the ability to scale both upwards and downwards. Operational risk management has become the need of the hour for banks across the globe. At Dion, we are passionate about creating innovative technology solution. Our passion is well in sync with FASYL's commitment to provide the best solutions to meet their customer's needs. This strengthens our belief in this partnership."

Mr. Bade Aluko, FASYL Group CEO said, "We are proud to be associated with Dion Global Solutions. Their software solutions have been gaining global acclaim and are a perfect fit to the needs of banking & financial institutions in Africa. Need for operational risk management has been ever increasing. With increased regulatory requirements, it has become mandatory for all banks & financial institutions to re-look into how they manage their risks. We are confident that with Dion's offerings and our in-depth experience in Africa market, we will be able to deliver immense value add to businesses of banks and financial institutions. We look forward to a long and fruitful partnership with Dion."

About FASYL Technology Group

FASYL Technology Group is primarily geared towards providing specialist support services for finance and enterprise applications software systems in the areas of product sale, implementation, support, training and consultancy services for the finance and telecom industry.

The group has since evolved with the primary purpose of providing a Pan-African coverage for her products and services.
